

# LaVie™

Nurture your Bond  
Love your Journey

## LaVie Lactation Massager

LaVie supports breastfeeding moms by providing them the confidence, resources, and tools they need to focus on what matters most - loving the bond with their newborn.

Breastfeeding is a beautiful experience that many new mothers look forward to. Unfortunately, for many, the experience comes with challenges, such as engorgement, plugged ducts, over- or under-supply, and other breastfeeding issues that can take away from their positive experience. These problems can be painful, stressful, and lead many moms to end their breastfeeding journey earlier than planned.

The LaVie Lactation Massager is the answer to these challenges, and is a must-have tool for every breastfeeding and pumping mom. By using the Lactation Massager, mothers are able to experience a better breastfeeding journey and focus on what matters most, their baby.

## What Mom's Say

"Was so glad I had it when I felt I was on the verge of another case of mastitis and was able to use it and avoid antibiotics."

- Kathleen S.

"It helps me empty better and it's also small enough to fit anywhere. I've noticed I average .5-1oz more milk per session! Every mom should have one of these!"

- Cassandra H.

"An amazing help for pumping! I use LaVie Massager before and during pumping and it definitely helps to trigger letdown! I love it!"

- Marie E.

## Lactation Massager Benefits

The LaVie Lactation Massager™ is a milk expression tool that helps improve milk flow and relieve pain caused by engorgement, plugged ducts and other breastfeeding symptoms. Developed in collaboration with IBCLCs, its unique shape and multiple vibration modes, combined with our step-by-step care plan, make the Lactation Massager the perfect tool to restore your milk flow. Benefits Include...

- Relief from plugged ducts and engorgement
- Faster milk letdown
- Improved milk flow
- Increased pumping output
- Empties the breast faster
- Softens the breast for better latching

The Lactation Massager is waterproof and rechargeable, so it's ready to use when and where moms need it. Plus, it's easy to take on the road with its travel lock, USB charger, and carrying case.

ERGONOMIC

WATERPROOF

MEDICAL GRADE SILICONE

RECHARGEABLE USB/POWER SUPPLY

QUIET

## How Does It Work?

**Stimulate Flow and Soften the Breast**  
Stimulate the breast with the **wide side** to improve letdown and soften the breast

**Bust Clogs and Empty Faster**  
Use the **narrow tip** to empty faster and work out stubborn plugged ducts that can lead to mastitis

**Move Fluids and Express Milk**  
Reduce engorgement and move milk more effectively with the **scoop edge**

## When Do Moms Use It?

Specifically designed to be with moms during every step of their breastfeeding journey, the Lactation Massager can be used:

- When the mother's milk first comes in to provide relief from pain and discomfort
- Before nursing sessions to encourage let-down, soften the breast for better latching
- In the nursing bra before and during pumping sessions to stimulate the breast and improve flow
- As needed to relieve pain and discomfort associated with mastitis, plugged ducts, and engorgement
- To replace tedious and tiring hand compression of the breast
